

Surgery for medial patella luxation - fixed price packages

Dr Duncan Midgley BVMS Cert SAO MRCVS AVP(SAO) has over 25 years experience in referral practice and has been performing surgery for medial patella luxation for over 30 years. He has designed and presented courses for Securos surgical in this field for the last 10 years.

We are pleased to offer a fixed price package for grade I, II and III medial patella luxation. All surgeries include preoperative radiographs, the procedure and follow up including 4 week check radiographs. Complications directly related to the procedure are covered free of charge for 6 months following surgery.
